

Utah Big Game Proclamation Addendum **Antlerless** 2003

STATE OF UTAH
NATURAL RESOURCES
Division of Wildlife Resources

Oil painting by Ron Anderson

HIGHLIGHTS OF THE 2003 ANTLERLESS ADDENDUM

1. **The antlerless application deadline is 5 p.m. June 16, 2003.**
 2. **Apply online:** Applications, along with permit and handling fees, will be accepted through the Division's Internet address at: wildlife.utah.gov
 3. Up to **four people** may apply as a group for antlerless deer, elk and pronghorn.
 4. If an error is found on an application, those applications received through the mail or through an overnight mail service by 5 p.m. June 9, 2003, may receive an application correction letter.
 5. **Drawing results** will be posted at Division offices, Lee Kay and Cache Valley Hunter Education centers and the Division's Web site by July 31, 2003.
 6. Personal or business checks drawn on in-state-Utah accounts, money orders, cashier's checks or American Express, Discover, MasterCard and VISA credit cards are accepted for payment. (When applying in the drawing and using a credit card, please be sure to have enough available credit to cover permit fees.)
 7. **Hunt numbers have changed.** Use the blue 3-digit hunt number listed on the hunt table in this proclamation.
 8. The **posting date** of the drawing shall be considered the purchase date of a permit.
 9. **Late applications** will not be considered in the drawings, however, the \$5 handling fee will be used to process the application for re-evaluation of Division or third-party errors and to send preprinted applications in following years. However, applications received after June 30, 2003 will be returned.
 10. **Hunter Education.** If an applicant for a resident or nonresident hunting license has completed a hunter education course and is applying for a hunting permit or license through the Division's drawings, Internet site, or other electronic means authorized by the Division, the applicant's hunter education number and the name of the state, province, or country that issued the number may constitute proof of completion of a hunter education course. The Division may research the hunter education number to verify that the applicant has completed a division approved hunter education course.
 11. A person may obtain **two elk permits** in any one of the following combinations:
 - (a) one bull elk permit and one antlerless permit;
 - (b) two antlerless permits; or
 - (c) one Hunter's Choice Permit and one antlerless permit.
- For the purposes of obtaining two elk permits, a Hunter's Choice elk permit is considered a bull elk permit.
12. A person who wishes to **obtain two elk permits** may do so in one of the following ways:
 - (a) any person who has already obtained an elk permit may apply for an antlerless elk permit in the initial antlerless drawing; or they may apply for a remaining antlerless elk permit between July 31 and August 8, 2003 (see Section II.B.6.); or purchase an antlerless elk permit over-the-counter beginning August 28, 2003; OR
 - (b) any person who has not obtained an elk permit may apply for and obtain one antlerless elk permit through the initial antlerless drawing beginning May 27, 2003; and then apply for a second antlerless elk permit through the drawing for remaining antlerless permits beginning July 31, 2003 (see Section II.B.6.) or purchase a remaining antlerless permit over-the-counter beginning August 28, 2003; OR
 - (c) any person who has not obtained an elk permit may apply for one antlerless elk permit in the initial or remaining antlerless drawing, and purchase a general bull elk permit beginning July 17, 2003 (Any Bull, Spike Bull, Archery Hunter's Choice, or Muzzleloader Spike Bull Elk permit); OR
 - (d) any person who has not obtained an elk permit may apply for two antlerless elk permits through the drawing for remaining antlerless permits beginning July 31, 2003.
 - (e) any person who has not obtained an elk permit may obtain two antlerless elk permits over-the-counter beginning August 28, 2003.

13. Remaining permits for hunts with season dates ending prior to August 26, 2003 will not be offered in the remaining drawing.
14. **A person may not waste or permit to be wasted or spoiled any protected wildlife** or any part of them (UCA 23-20-8). Hunters must be aware that big game harvested during the warm weather, especially during early season hunts, must receive immediate care to ensure that the meat does not spoil.
15. **Hunter orange** must be worn when any centerfire rifle hunt is in progress in the same area, including CWMUs.
16. **Caution:** The Division of Wildlife Resources urges hunters to use extreme caution and exercise good judgement during antlerless seasons. Please be sure of your target. "Accidents" still cause damage to the resource. Party hunting, taking over limits, and abandoning wildlife are common violations witnessed by Utah Conservation Officers. These crimes seriously erode public support of hunting and are often punishable as felonies. Persons convicted of these types of violations are subject to fines, civil restitution, jail time and loss of hunting privileges.
17. **WASATCH FRONT EXTENDED ARCHERY HUNT: —**
Certificate of Completion Required. Successful completion of a hunter orientation course and possession of the certificate while hunting is required to participate in the Wasatch Front Extended Archery hunt. The orientation course is in addition to the Hunter Education requirement. The orientation course will be available online through the Division's Internet site at: wildlife.utah.gov and other locations to be announced. The continuation of the Wasatch Front Extended Archery hunt depends upon hunters acting responsibly. Information on access points and recommendations on how to avoid conflicts with property owners will be available at regional offices and the Division's Internet site at: wildlife.utah.gov. (See the 2003 Bucks, Bulls and Once-in-a-Lifetime Big Game Proclamation for more information.)
18. Because of concerns about **Chronic Wasting Disease**, new rules apply to importation or transportation of dead mule deer, elk and white-tailed deer through or into Utah.
19. **PRIVATE LANDS:** While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands, you must also obtain WRITTEN permission from the landowner or person in charge. Unless otherwise provided, all hunt units exclude CWMUs and Native American Tribal Lands.
20. **New license suspension guidelines:** The 2001 Legislature enacted new guidelines for the suspension of one's hunting privileges following the adjudication of a wildlife violation. A person in violation of any Title 23 or Wildlife Board Rule and,
 - (i) is convicted of a third degree felony may have their wildlife license or permit privileges suspended for a period of seven years;
 - (ii) is convicted of a Class A misdemeanor may have their wildlife license or permit privileges suspended for a period of five years; or
 - (iii) is convicted of a class B misdemeanor may have their wildlife license or permit privileges suspended for a period of three years. Each of the above periods of suspension may be doubled if the animal involved in the violation qualifies as a trophy animal as per 23-20-4.

If any person, within a five year period, commits three or more Class B or Class C wildlife violations, that person's license and permit privileges may be suspended for a period of up to one year for each violation.

21. The Division may **void and reissue permits** when the payment from personal checks or credit cards is invalid.

Attention hunters

The U.S. Bureau of Land Management (BLM) and the USDA Forest Service (USFS) conduct controlled burns in the fall. Furthermore, drought conditions may lead to wild fires during the hunting seasons. Check with the local BLM or USFS office for up-to-date information.

Utah Big Game Proclamation Addendum

Antlerless

2003

I. Purpose and Authority

R657-5-1

(1) Under authority of Sections 23-14-18 and 23-14-19, the Utah Wildlife Board has established this Antlerless Addendum to the Bucks, Bulls & Once-In-A-Lifetime Big Game Proclamation for taking deer, elk, pronghorn, moose, bison, bighorn sheep and Rocky Mountain goat.

(2) Antlerless hunts, season dates, areas and drawing procedures are published herein. Hunters must comply with this addendum in addition to the general provisions, methods of take, requirements and other administrative details provided in Rule R657-5 and the Bucks, Bulls & Once-In-A-Lifetime Big Game Proclamation of the Wildlife Board.

(3) This Antlerless Addendum expires March 1, 2004, unless modified or rescinded by the Wildlife Board or the director of the Division of Wildlife Resources.

II. Antlerless Applications

A. Drawing and Permit Sales

(1) A person may obtain:

- (a) one antlerless deer permit, except in areas where two-doe permits are available;
- (b) two antlerless elk permits as provided in Section III.B.(3);
- (c) a doe pronghorn permit; and
- (d) an antlerless moose permit.

(2) Antlerless permits as provided in Subsection (1) may only be obtained through the antlerless drawing procedure.

B. Antlerless Application and Drawing Procedure

1. Application - Deadline

R657-5-57

(1) The 2003 applications will be available by May 27, 2003 from license agents, Division offices, and through the Division's Internet address: www.wildlife.utah.gov.

(2) The Division may mail preprinted applications as a courtesy to applicants who have applied in previous years. Any person who does not receive a preprinted application may obtain an application from a license agent, Division office or from the Division's Internet address.

(3) Residents and nonresidents may apply for, and draw the following permits, except as provided in Subsection (4):

- (a) antlerless deer;
- (b) antlerless elk;
- (c) doe pronghorn; and
- (d) antlerless moose.

(4) Any person who has obtained a pronghorn permit, or a moose permit may not apply for a doe pronghorn permit or antlerless moose permit, respectively, except as provided in Section 6, Drawing for Remaining Antlerless Permits.

(5) A person may not submit more than one application in the initial drawing per each species as provided in Subsection (3).

(6) Only a resident may apply for or obtain a resident permit and only a nonresident may apply for or obtain a nonresident permit, except as provided in Section 4, Antlerless Big Game Drawing and Section 7, Antlerless Permits Remaining After the Drawing.

(7)(a) Applications must be submitted in one of the following ways:

- (i) through the mail to: Utah Wildlife Administrative Services, P.O. Box 30389, Salt Lake City, Utah 84130-0389; or
- (ii) through an overnight mail service to: Utah Wildlife Administrative Services, 185 North Maine Street, Fallon, Nevada 89406; or
- (iii) through the Division's Internet address: www.wildlife.utah.gov.

(b) Applications must be received through the mail at the Utah Wildlife Administrative Service's P.O. Box, through an overnight mail service at the Utah Wildlife Administrative Service's street address, or through the Division's Internet address no later than 5 p.m., June 16, 2003. Allow the Post Office time to process the mail. This is not a drop box. The Utah Division of Wildlife Resources cannot guarantee delivery. Check with your local postmaster for service. Overnight mail cannot be delivered to a Post Office box.

(c) If an error is found on an application, those applications received through the mail, through an overnight mail service, or through the Internet by 5 p.m., June 9, 2003 may receive an application correction letter. Corrections by the applicant can only be made using the personalized and numbered application correction letter mailed to the applicant. Corrections must be mailed to the address identified in the application correction letter and received no later than the date indicated in the letter.

(d) If an error is found on an application received between June 9 and June 16, the application may be considered for correction if processing time allows.

(e) The opportunity to correct an error is not guaranteed. The Division reserves the right to correct applications without sending a correction letter.

(9)(a) Late applications received by June 30, 2003 will not be considered in the drawing, but will be processed for the purpose of entering data into the Division's draw database to provide:

- (i) future preprinted applications;
- (ii) notification by mail of late application and other draw opportunities; and
- (iii) re-evaluation of Division or third-party errors.

(b) The \$5 handling fee will be used to process the late application. Any permit fees submitted with the application will be refunded.

(c) Late applications received after June 30, 2003 will not be processed and will be returned.

(10) Any person who applies for a hunt that occurs on private land is responsible for obtaining written permission from the landowner to access the property. To avoid disappointment and wasting the permit and fee if access is not obtained, hunters should get written permission before applying. The Division does not guarantee access and does not have the names of landowners where hunts occur. Hunts that occur primarily on private land are indicated by an asterisk in the hunt tables.

(11) To apply for a resident permit, a person must establish residency at the time of purchase.

(12) The posting date of the drawing shall be considered the purchase date of a permit.

2. Fees for Antlerless Applications

R657-5-58 & R657-42

(1) Each application must include the permit fee and a \$5 nonrefundable handling fee for each species applied for, except when applying with a credit card, the permit fees and handling fees must be paid pursuant to Subsection (3)(c).

(2)(a) Personal checks, business checks, money orders, cashier's checks, and American Express, Discover, MasterCard and VISA credit cards are accepted.

(b) Personal or business checks drawn on an out-of-state account are not accepted.

(c) Third-party checks are not accepted.

(d) All payments must be made payable to the Utah Division of Wildlife Resources.

(3)(a) Credit cards must be valid at least 30 days after the drawing results are posted.

(b) If applicants are applying as a group, all fees for all applicants in that group must be charged to one credit card.

(c) Handling fees and donations are charged to the credit card when the application is processed. Permit fees are charged after the drawing, if successful.

(4)(a) An application is voidable if the check is returned unpaid from the bank or the credit card is invalid or refused.

(b) The Division charges a \$20 returned check collection fee for any check returned unpaid from the bank.

(5)(a) A license or permit is voidable if the check is returned unpaid from the bank or the credit card is invalid or refused.

(b) The Division may void a permit after making a reasonable effort to contact the successful applicant to collect payment and payment is not received.

(c) The Division shall reinstate the applicant's bonus points or preference points, whichever is applicable, and waive waiting periods, if applicable, when voiding a permit in accordance with Subsection (b).

(d) A permit which is deemed void in accordance with Subsection (b) may be reissued by the Division to the next person listed on the alternate drawing list.

(6) A license or permit received by a person shall be deemed invalid if payment for that license or permit is not received, or a check is returned unpaid from the bank, or the credit card is invalid or refused.

(7) Hunting with a permit where payment has not been received for that permit constitutes a violation of hunting without a valid permit.

(8) The Division may require a money order or cashier's check to correct payment for a license, permit, or certificate of registration.

(9) Any person who fails to pay the required fee for any application, license, permit or certificate of registration, shall be ineligible to obtain any other license, permit, tag, or certificate of registration until the delinquent fees and associated collection costs are paid.

3. Applying as a Group

R657-5-26

(1)(a) Up to four people may apply together for deer, elk or pronghorn permits.

(b) Group applications are not accepted for moose permits.

(2)(a) Applicants must indicate the number of hunters in the group by filling in the appropriate box on each application form.

(b) If the appropriate box is not filled out with the number of hunters in the group, each hunter in that group shall be entered into the drawing as individual hunters, and not as a group.

(3) Group applicants must submit their applications together in the same envelope.

(4) Residents and nonresidents may apply together.

(5) When applying as a group:

(a) if one applicant is successful in drawing a permit, then all applicants with valid applications in that group are successful;

(b) if the group is rejected due to an error in fees and only one species is applied for, then the entire group is rejected;

(c) if the group is rejected due to an error in fees and more than one species is applied for, the group will be kept in the drawing for any species with sufficient fees, using the draw order (for example, if a group applies for antlerless elk and antlerless deer, but only sends enough money to cover antlerless elk, they will only be in the drawing for antlerless elk. If they are unsuccessful in the antlerless elk drawing, they will not be included in the antlerless deer drawing); or

(d) if one or more members of the group are rejected due to an error other than fees, the members with valid applications will be kept in the drawing, unless the group indicates on the application that all members are to be rejected.

(i) The applicant whose application is on the top of all the applications for that group, will be designated the group leader.

(ii) If any group member has an error on their application that is not corrected during the correction process, the reject box on the group leader's application will determine whether the entire group is rejected.

4. Antlerless Big Game Drawing

R657-5-59

(1) The drawing results will be posted by July 31, 2003 at the Lee Kay Center for Hunter Education, Cache Valley Hunter Education Center, Division offices and at the Division's Internet address: www.wildlife.utah.gov.

(2) Permits are drawn in the following order:

(a) antlerless moose;

(b) antlerless elk;

(c) antlerless deer; and

(d) doe pronghorn.

(3) If permits remain after all choices have been evaluated separately for residents and nonresidents, a second evaluation will be done allowing cross-over usage of remaining resident and nonresident permit quotas. (For example, if nonresident permits are available for a certain hunt, they will be filled by residents who were unsuccessful in the drawing for the same hunt.)

5. Antlerless Application Refunds

R657-5-60

(1)(a) Unsuccessful applicants, who applied in the initial drawing and who applied with a check or money order, will receive a refund in September.

(b) Unsuccessful applicants, who applied for remaining permits and who applied with a check or money order, will receive a refund in October.

(2)(a) Unsuccessful applicants, who applied with a credit card, will not be charged for a permit.

(b) Unsuccessful applicants, who applied as a group, will receive an equally distributed refund of money remaining after the successful applicants' permits are paid for (See Section 11.A.3.(5)).

(c) If group members have other financial arrangements between themselves, group members should be prepared to reallocate each group member's individual refunds among themselves.

(3) The \$5 handling fees are nonrefundable.

6. Drawing for Remaining Antlerless Permits

R657-5-61

(1)(a) The list of remaining permits will be available by July 31, 2003 from Division offices.

- (b) Remaining permits for hunts with season dates ending prior to August 26, 2003, shall not be offered in the remaining drawing.
- (2) Residents and nonresidents may apply for, and draw any of the following remaining permits, except as provided in Subsection (3):
- (a) antlerless deer;
 - (b) antlerless elk;
 - (c) doe pronghorn; and
 - (d) antlerless moose.
- (3) Any person who has obtained:
- (a) an antlerless deer permit, may not apply for an antlerless deer permit;
 - (b) two elk permits, may not apply for an antlerless elk permit;
 - (c) a pronghorn permit may not apply for a doe pronghorn permit; or
 - (d) a moose permit may not apply for an antlerless moose permit.
- (4) Residents or nonresidents may apply for any remaining permits.
- (5) The same application form used for the antlerless drawing must be used when applying for remaining permits. The \$5 handling fees are nonrefundable.
- (6) Applications for remaining permits must be received through the mail no later than 5 p.m., August 8, 2003.
- (7) Applications must be submitted in one of the following ways:
- (a) through the mail to: Utah Wildlife Administrative Services, P.O. Box 30389, Salt Lake City, Utah 84130-0389; or
 - (b) through an overnight mail service to: Utah Wildlife Administrative Services, 185 North Maine Street, Fallon, Nevada 89406; or
 - (c) through the Division's Internet address: www.wildlife.utah.gov.
- (8) Applicants who apply for remaining permits will not be provided an opportunity to correct a rejected or invalid application on the drawing for remaining antlerless permits.
- (9) The drawing results for remaining antlerless permits will be posted by August 26, 2003 at the Lee Kay Center for Hunter Education, Cache Valley Hunter Education Center, Division offices and at the Division's Internet address: www.wildlife.utah.gov.

7. Antlerless Permits Remaining After the Drawing

R657-5-61

Permits remaining after August 26, 2003 will be sold over-the-counter, in person, or through the mail, on a first-come, first-served basis only at the Salt Lake Division office beginning August 28, 2003.

8. Application Withdrawal

R657-5-62

- (1) An applicant may withdraw their application for the initial antlerless permit drawing by requesting such in writing by June 30, 2003.
- (2) The applicant must send their notarized signature with a statement requesting that their application be withdrawn to the Salt Lake Division office.
- (3) Handling fees will not be refunded.

9. Application Amendments

R657-5-62

- (1)(a) An applicant may amend their application for the initial antlerless drawing by requesting such in writing by June 16, 2003.
- (b) An amendment form is available at Division offices and through the Division's Internet address: www.wildlife.utah.gov, which requests all the necessary information to amend an application.
- (2) The applicant must send their notarized signature with a statement requesting that their application be amended to the Salt Lake Division office.

- (3) The applicant must identify in their statement the requested amendment to their application.
- (4) Handling fees will not be refunded.

10. Sales Final — Exceptions 23-19-38

- (1) Sales of all licenses, certificates or permits are final, and no refunds may be made by the Division, except as provided in Subsection (2).
- (2) The Division may refund the amount of the license, certificate or permit if:
- (a) the Division or Wildlife Board discontinues the activity for which the license, certificate or permit was obtained;
 - (b) the Division determines that it has erroneously collected a fee;
 - (c)(i) a person is not able to participate in a permitted activity due to illness or injury;
 - (ii) the person furnishes verification of illness or injury from a physician; and
 - (iii) the permit is surrendered before the season for which the permit was issued begins; or
 - (d) the person to whom the license, certificate or permit is issued dies prior to that person's being able to participate in the activity for which the license, certificate or permit was obtained.
- (3) The Division director may reallocate surrendered permits in accordance with Rule R657-42.

C. Waiting Periods

1. Antlerless Moose (5-Year Waiting Period)

R657-5-33

- (1) A person who obtained an antlerless moose permit or an antlerless moose Cooperative Wildlife Management Unit permit through the Antlerless Drawing process in 1998, 1999, 2000, 2001, or 2002 may not apply for an antlerless moose permit in 2003.
- (2) A person who obtains an antlerless moose or an antlerless moose Cooperative Wildlife Management Unit permit through the Antlerless Drawing process in 2003 may not apply for an antlerless moose permit again until 2009.
- (3) A waiting period does not apply to an antlerless moose Cooperative Wildlife Management Unit permit obtained through the landowner.

2. Waiting Periods for Permits Purchased After the Drawing

R657-5-35

- (1) Waiting periods do not apply to the purchase of antlerless permits remaining after August 26, 2003.
- (2) However, waiting periods are incurred as a result of purchasing remaining permits after the drawing. Therefore, if a remaining permit is purchased in the current year, waiting periods will be in effect when applying for that species in the drawing in following years.

III. Chronic Wasting Disease

A. Carcass Importation

R657-5-69

- (1) It is unlawful to import dead elk, mule deer, or white-tailed deer or their parts from the areas of any state, province, game management unit, equivalent wildlife management unit, or county, which has deer or elk diagnosed with Chronic Wasting Disease, except the following portions of the carcass:
- (a) meat that is cut and wrapped either commercially or privately;

(b) quarters or other portion of meat with no part of the spinal column or head attached;

(c) meat that is boned out;

(d) hides with no heads attached;

(e) skull plates with antlers attached that have been cleaned of all meat and tissue;

(f) antlers with no meat or tissue attached;

(g) upper canine teeth, also known as buglers, whistlers, or ivories; or

(h) finished taxidermy heads.

(2)(a) The affected states, provinces, game management units, equivalent wildlife management units, or counties, which have deer or elk diagnosed with Chronic Wasting Disease shall be available at Division offices and through the Division's Internet address.

(b) Importation of harvested elk, mule deer or white-tailed deer or their parts from the affected areas are hereby restricted pursuant to Subsection (1).

(3) Nonresidents of Utah transporting harvested elk, mule deer, or white-tailed deer from the affected areas are exempt if they:

(a) do not leave any part of the harvested animal in Utah and do not stay more than 24 hours in the state of Utah;

(b) do not have their deer or elk processed in Utah; or

(c) do not leave any parts of the carcass in Utah.

B. Chronic Wasting Disease — Infected Animals

R657-5-70

(1) Any person who under the authority of a permit issued by the Division legally takes a deer or elk that is later confirmed to be infected with Chronic Wasting Disease may:

(a) retain the entire carcass of the animal;

(b) retain any parts of the carcass, including antlers, and surrender the remainder to the Division for proper disposal; or

(c) surrender all portions of the carcass in their actual or constructive possession, including antlers, to the Division and receive a free duplicate permit the following year for the same hunt.

(2) The duplicate permit issued pursuant to Subsection (1)(c) shall be for the same species, sex, weapon type, unit, region, and otherwise subject to all the restrictions and conditions imposed on the original permit, except season dates for the permit shall follow the proclamation of the Wildlife Board for taking big game published in the year the duplicate permit is valid.

IV. Hunting

A. Antlerless Deer Hunts

R657-5-42

"Antlerless deer" means a deer without antlers or with antlers five inches or shorter (R657-5 2(2)(a)).

(1) To hunt an antlerless deer, a hunter must obtain an antlerless deer permit.

(2)(a) An antlerless deer permit allows a person to take one antlerless deer, per antlerless deer tag, using any legal weapon within the area and season as specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless deer permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3) A person who has obtained an antlerless deer permit may not hunt during any other antlerless deer hunt or obtain any other antlerless deer permit.

(4) (a) A person who obtains an antlerless deer permit and any of the permits listed in Subsection (b) may use the antlerless deer permit during the established season for the antlerless deer permit and during the established season for the permits listed in Subsection (b) provided:

(i) the permits are both valid for the same area;

(ii) the appropriate archery equipment is used if hunting with an archery permit;

(iii) the appropriate muzzleloader equipment is used if hunting with a muzzleloader permit.

(b)(i) General archery deer;

(ii) general muzzleloader deer;

(iii) limited entry archery deer; or

(iv) limited entry muzzleloader deer.

B. Antlerless Elk Hunts

R657-5-48

"Antlerless elk" means an elk without antlers or with antlers five inches or shorter (R657-5 2(2)(b)).

(1) To hunt an antlerless elk, a hunter must obtain an antlerless elk permit.

(2)(a) An antlerless elk permit allows a person to take one antlerless elk using any legal weapon within the area and season as specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless elk permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3)(a) A person may obtain two elk permits each year, provided one or both of the permits is an antlerless elk permit.

(b) For the purpose of obtaining two elk permits, a hunter's choice elk permit may not be considered an antlerless elk permit.

(4)(a) A person who obtains an antlerless elk permit and any of the permits listed in Subsection (b) may use the antlerless elk permit during the established season for the antlerless elk permit and during the established season for the permits listed in Subsection (b) provided:

- (i) the permits are both valid for the same area;
- (ii) the appropriate archery equipment is used if hunting with an archery permit;
- (iii) the appropriate muzzleloader equipment is used if hunting with a muzzleloader permit.
- (b)(i) General archery deer;
- (ii) general archery elk;
- (iii) general muzzleloader deer;
- (iv) general muzzleloader elk (includes ML300 and general muzzleloader spike bull permits);
- (v) limited entry archery deer;
- (vi) limited entry archery elk (includes AR301 permits);
- (vii) limited entry muzzleloader deer; or
- (viii) limited entry muzzleloader elk.

C. Doe Pronghorn Hunts

R657-5-50

"Doe pronghorn" means a pronghorn without horns or with horns five inches or shorter (R657 5-2(2)(j)).

- (1) To hunt a doe pronghorn, a hunter must obtain a doe pronghorn permit.
- (2)(a) A doe pronghorn permit allows a person to take one doe pronghorn using any legal weapon within the area and season as specified on the permit and in this addendum.
- (b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains a doe pronghorn permit for a Cooperative Wildlife Management Unit as specified on the permit.
- (3) A person who has obtained a doe pronghorn permit may not hunt during any other pronghorn hunt or obtain any other pronghorn permit.

D. Antlerless Moose Hunts

R657-5-51

- (1) To hunt an antlerless moose, a hunter must obtain an antlerless moose permit.
- (2)(a) An antlerless moose permit allows a person to take one antlerless moose using any legal weapon within the area and season specified on the permit and in this addendum.
- (b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless moose permit for a Cooperative Wildlife Management Unit as specified on the permit.
- (3) A person who has obtained an antlerless moose permit may not hunt during any other moose hunt or obtain any other moose permit.

"Antlerless moose" means a moose without antlers or with antlers shorter than its ears (R657-5-2(2)(c)).

V. Cooperative Wildlife Management Unit Antlerless Permits

Less than one-fourth of Utah's 54.3 million acres are in private ownership, but more than 60% of the state's big game winter range occurs on private land. Utah is growing rapidly and its private rangelands face increasing pressure from expanding suburban and urban development. These critical circumstances have lead to the creation of the Cooperative Wildlife Management Unit Program.

Cooperative Wildlife Management Units (CWMUs) are private land areas that in addition to ranching and other private uses are also managed for big game species in partnership with the Division of Wildlife Resources. While big game animals are the principle species managed for, other wildlife also benefit.

The CWMU Program, through allocation of big game hunting permit vouchers to landowners, provides economic incentive to the owners to keep private range and forest lands in wildlife habitat rather than succumbing to development. CWMUs also allow for free public hunting access onto the private lands enrolled in the program.

Some public land is included in certain CWMUs because it is isolated by private ownership. In other cases it may be included in order to clarify unit boundaries and to improve the ability to manage the resident wildlife. When public lands are included, the public is compensated with additional hunting opportunity.

Both private and public hunters generally enjoy greater hunting benefits on CWMUs in the form of improved harvest success and reduced hunter competition.

Successful applicants are responsible for contacting the CWMU operator to obtain the following:

- (a) Hunting dates of guaranteed access within the legal CWMU hunting season framework. Realize that both the operator and the hunter must schedule around individual needs — be realistic and patient.

- (b) A map of the CWMU showing access and the acreage you will be allowed to hunt. The CWMU acreage should be equally available to private and public CWMU hunters.

- (c) A copy of rules. CWMUs are allowed to develop rules by which hunters invited onto the units are expected to comply. Rules may include such requirements as no pre-season scouting, checking into and out of the unit daily, limited vehicle access, no overnight camping, a marksmanship test, limiting the number of hunting companions, etc. Hunters may be asked to leave a CWMU for failure to abide by reasonable rules of the CWMU (Utah Code 23-23-11).

Complaint Process: Hunters wishing to lodge complaints against a CWMU should contact the Division immediately. Biologists and Conservation Officers have access to forms by which complaints may be made. Otherwise, the complaint may be made to any

Division personnel. Because time is of the essence, it is expected that the hunter and the operator will make every effort to resolve issues before they escalate to the Division level. If a problem cannot be resolved locally, it may be passed on to a CWMU Advisory Committee. For more information on CWMUs, see Utah Admin. Code, Rule R657-37.

How To Obtain CWMU Permits

- (1) Residents and nonresidents may apply for antlerless CWMU permits through the drawing or may obtain CWMU permit vouchers from the landowner or operator.
- (2) CWMU vouchers may be redeemed:
 - (a) by mailing the vouchers to the Division, CWMU Licensing, 1594 W. No. Temple, Suite 2110, Box 146301, Salt Lake City, UT 84114, to obtain permits (please allow 10 to 14 days for processing); or
 - (b) over-the-counter at any Division office.

VI. Poaching-Reported Reward Permits

R657-5-23

- (1) Any person who provides information leading to another person's arrest and successful prosecution for wanton destruction of a buck deer, bull elk, buck pronghorn, bull moose, bison, desert bighorn ram, Rocky Mountain bighorn ram or Rocky Mountain goat under Section 23-20-4 for any Once-In-A-Lifetime species or within any limited entry area may receive a permit from the Division to hunt for the same species and on the same Once-In-A-Lifetime or limited entry area where the violation occurred, except as provided in Subsection (2).
- (2)(a) In the event that issuance of a Poaching-Reported Reward Permit would exceed 5 percent of the total number of Once-In-A-Lifetime or limited entry permits issued in the following year for the respective area, a permit shall not be issued for that respective area. As an alternative, the Division may issue a permit as outlined in Subsections (b) or (c).

(b) If the illegally taken animal is a bull moose, bison, desert bighorn ram, Rocky Mountain bighorn ram or Rocky Mountain goat, a permit for an alternative species and an alternative Once In-A-Lifetime or limited entry area that has been allocated more than 20 permits may be issued.

(c) If the illegally taken animal is a buck deer, bull elk or buck pronghorn, a permit for the same species on an alternative limited entry area that has been allocated more than 20 permits may be issued.

(3)(a) The Division may issue only one Poaching-Reported Reward Permit for any one animal illegally taken.

(b) No more than one Poaching-Reported Reward Permit shall be issued to any one person per successful prosecution.

(c) No more than one Poaching-Reported Reward Permit per species shall be issued to any one person in any one calendar year.

(4)(a) Poaching-Reported Reward permits may only be issued to the person who provides the most pertinent information leading to a successful prosecution. Permits are not transferrable.

(b) If information is received from more than one person, the director of the Division shall make a determination based on the facts of the case, as to which person provided the most pertinent information leading to the successful prosecution in the case.

(c) The person providing the most pertinent information shall qualify for the Poaching-Reported Reward Permit.

(5) Any person who receives a Poaching-Reported Reward Permit must be eligible to hunt and obtain big game permits as provided in all rules and regulations of the Wildlife Board and the Wildlife Resources Code.

(6) For purposes of this section, "successful prosecution" means the screening, filing of charges and subsequent adjudication for the poaching incident.

ANTLERLESS DEER HUNTS

Use the [Blue](#) three-digit hunt number on the application.

(Permit Fee: Resident \$20, Nonresident \$83, Two-doe permit fee: Resident \$35, Nonresident \$161)

*Hunts comprised of all or largely private property. Hunters should acquire written permission from the landowner before applying for the hunt.

License Suspension

The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

ANTLERLESS HUNT BOUNDARIES 2003

551-10 Book Cliffs, Bitter Creek-East (elk)

Uintah and Grand counties — Boundary begins at the Utah-Colorado state line and the White River; west along the White River to the Seep Ridge Road bridge (south of Ouray); south along the Seep Ridge Road to the north-south Book Cliffs drainage divide road (Divide Road); east along the drainage divide road to the Utah-Colorado state line; north along the Utah-Colorado state line to the White River. **Excludes all Indian Trust Lands within this boundary.** USGS 1:100,000 Maps: Seep Ridge, Vernal, Westwater. Boundary questions? Call DWR Vernal office, (435) 781-9453.

550-10 Book Cliffs, Little Creek (elk)

Grand County — Boundary begins at Ten Mile Knoll; southwest along Diamond Ridge and the Book Cliffs summit (north-south drainage divide) to the Uintah and Ouray Indian Reservation boundary (Hell's Hole/head of Segó Canyon); north along this boundary (west side of Willow Creek) to Steer Ridge; southeast on Steer Ridge Road to Ten Mile Knoll. **Excludes all Indian Trust Lands within this boundary.** USGS 1:100,000 Maps: Westwater. Boundary questions? Call DWR Vernal Office, (435) 781-9453.

552-10 Book Cliffs, Bitter Creek-McCook Ridge (elk)

Uintah and Grand counties — Boundary begins at the confluence of Bitter Creek and Sweetwater Creek; south along Bitter Creek to the Dick Canyon Road; south along this road to the Book Cliffs drainage divide road (Divide Road); west along Divide Road to the San Arroyo Ridge radio towers; north from the radio towers into Sweetwater Canyon and Sweetwater Creek; north along this creek to the confluence with Bitter Creek. **Excludes all Indian Trust Lands within this boundary.** USGS 1:100,000 Maps: Seep Ridge, Westwater. Boundary questions? Call DWR Vernal office, (435) 781-9453.

553-10 Book Cliffs, Bitter Creek-West (elk)

Uintah and Grand counties — Boundary begins at the junction of the White River-Seep Ridge Road bridge south of Ouray; west along the White River to the confluence of the Green River; west along the Green River to the Uintah and Ouray Indian Reservation boundary; south along the Uintah and Ouray Indian Reservation boundary to Steer Ridge; southeast on the Steer Ridge Road to Ten Mile Knoll and the north-south Book Cliffs drainage divide road; east along this road to the junction with the Seep Ridge Road; north along the Seep Ridge Road to the White River Bridge. **Excludes all Indian Trust Lands within this boundary.** USGS 1:100,000 Maps: Seep Ridge, Vernal, Westwater. Boundary questions? Call DWR Vernal office, (435) 781-9453.

116-10 Book Cliffs, Green River Valley (deer)

Utah!
Where ideas connect

There's More To Hunter Safety & Responsibility Than Just Weapons Safety

What Can You Do To Prevent Wildfires?

- Find out any fire restrictions in the area you plan to visit.
- When smoking outside a vehicle, safe practices require at least a 3-foot area cleared to bare dirt.
- Limit use of motorized vehicles to established roads or trails.
- Do not park vehicles over dry grass or brush, hot exhaust systems can and do start fires.
- Keep a bucket, a shovel and a fire extinguisher in your vehicle and at your camp.
- Ensure your ATV's and motorcycles are equipped with spark arresters.

Talk to other hunters about fire safety
and **SPREAD THE WORD.**

Ensure all fires are **DEAD OUT!**

Be responsible and protect your hunting opportunities.

Build A Safe Campfire

- Check to see if a campfire is allowed in the area you plan to visit.
- Use designated sites or clear an area at least 10 feet across.
- Build campfires away from overhanging branches.
- Keep fire small and controllable.
- Never leave a campfire unattended.
- Drown fire with water and stir remains to make sure all embers, coals & sticks are wet and cool to the touch.

Check with your local agencies to see if there are any prescribed fires taking place where you are planning to hunt.

Help Out — Report All Fires
To Your Local Agencies.

Chronic Wasting Disease Update

What is chronic wasting disease?

(Updated February 2003)

Chronic wasting disease (CWD) is a relatively rare neurological disease found only in wild and captive deer and elk herds in North America. It belongs to a family of diseases known as transmissible spongiform encephalopathies (TSE) or prion diseases.

Other TSE diseases include scrapie in domestic sheep, bovine spongiform encephalopathies or mad cow disease, and Creutzfeldt-Jakob disease in humans. Although CWD shares certain features with other TSE diseases, it is a distinct disease apparently affecting only deer and elk.

Chronic wasting disease attacks the brains of infected deer and elk, causing the animals to become emaciated, display abnormal behavior, lose bodily function and eventually die.

Other symptoms include excessive salivation, loss of appetite, excessive thirst and urination, holding the head in a lowered position, and drooping ears.

There is currently no evidence that CWD is transmissible to humans. There is also no scientific evidence that chronic wasting disease can be transmitted to livestock or other big game animals.

How is CWD diagnosed?

The prion that causes CWD accumulates in certain parts of an infected deer or elk including the brain, eyes, spinal cord, lymph nodes, tonsils, and spleen.

The brain and/or lymph nodes are collected from dead deer or elk and examined microscopically using special stains to identify the CWD prion.

Chronic wasting disease — now found in Utah

Chronic wasting disease has now been found in Utah. A single mule deer buck taken near Vernal, Utah during the 2002 hunt tested positive for the disease. It is also found in wild deer and elk in parts of Colorado, Wyoming, South Dakota, Nebraska, New Mexico and Wisconsin. It is also found in captive deer and elk in six states and two Canadian Provinces.

Chronic wasting disease is a relatively rare disease. In the endemic area of Wyoming, Colorado, and Nebraska it is found in less than 1 percent of the wild elk and in 1 to 15 percent of wild deer populations.

What is the UDWR doing about CWD?

The Utah Division of Wildlife Resources (UDWR) first began looking for chronic wasting disease in 1998. Over 700 samples were taken from hunter harvested deer and elk in 1998 and 1999. The UDWR has also collected samples from symptomatic animals throughout the state. None of these samples tested positive for CWD.

Since CWD-positive deer were discovered in western Colorado in early 2002, the UDWR increased its surveillance program and looked more aggressively for this disease. Nearly 1,500 deer and elk were tested for the disease in 2002 in Utah.

New carcass regulations

The UDWR has also taken measures to prohibit the import of deer and elk carcasses from known infection areas. Only the following parts of wild deer and elk may be imported from designated infection areas from other states.

- Meat that is cut and wrapped either commercially or privately.
- Quarters or other portion of meat with no part of the spinal column or head attached.
- Meat that is boned out.
- Hides with no heads attached.
- Skulls plates with antlers attached that have been cleaned of all meat and tissue.
- Antlers with no meat or tissue attached.
- Upper canine teeth known as buglers, whistlers or ivories.
- Finished taxidermy heads.

Nonresidents transporting harvested deer and elk carcasses through Utah may do so if they do not stay in Utah more than 24 hours.

How can hunters help?

Immediately report all deer that appear sick or emaciated to a UDWR office, biologist or officer.

Salt Lake Office	(801) 538-4700
Southeastern Region	(435) 636-0260
Central Region	(801) 491-5678
Northeastern Region	(435) 781-9453
Southern Region	(435) 865-6100
Northern Region	(801) 476-2740

Some deer hunters will be asked to provide heads of harvested game animals for CWD testing at checking stations throughout the state. Hunters who harvest trophy animals from areas where testing is needed may be requested to cooperate by removing the cape from the deer or elk in the field or by taking the head to a Division office immediately after it is caped. The UDWR can then remove a brain sample from the head for testing.

Can hunters have their deer and elk tested for chronic wasting disease?

Hunters who have their deer or elk sampled by the UDWR will be notified of any animals which test positive.

Other hunters who wish to have their deer or elk tested for chronic wasting disease may do so at a cost of \$20 by providing the head of the animal to Utah State University Veterinary Diagnostic Lab in Logan, Utah. Deer and elk must be older than one year of age to be eligible for testing. Hunters interested in having their animal tested should call the lab at 1 (435) 797-1895.

**For the latest information, go to the UDWR Web site:
wildlife.utah.gov**

Should Utah hunters be concerned about CWD?

The World Health Organization has stated: *There is currently no evidence that CWD in cervidae (deer and elk) is transmitted to humans.*"

While there is no evidence that CWD affects humans and CWD has not been detected in Utah, hunters may wish to take these simple precautions when handling deer and elk carcasses:

- Do not harvest or eat animals that appear sick.
- Wear rubber or latex gloves when field dressing and processing game meat.
- Bone out the meat from the deer or elk and remove all fat, membranes and connective tissue.
- Minimize handling of the brain, spinal cord, spleen and lymph nodes. Do not cut through the spinal cord except to remove the head.
- Do not consume the brain, spinal cord, eyes, spleen, tonsils or lymph nodes.
- Do not use household utensils to field dress or process meat. Thoroughly clean all knives, equipment and work areas with a 50/50 solution of household bleach and water.

Avoid soft tissues where prions accumulate

Chronic Wasting Disease Distribution

- States and Provinces with chronic wasting disease in captive-bred deer or elk populations are shown in white.
- CWD-infected wild deer or elk populations.

On the cover:

Ron Anderson has been blessed with a love of life. Hunting and fishing are tradition in his family (bordering on obsession). Given the opportunity he would choose going 'in the hills' over most any other activity. This continually produces experiences and observances of wildlife that ultimately becomes the subject of his oil paintings. A Utah native, the mountains around him include the Pahvant, Monroe,

Fish Lake-Thousand Lakes Plateau, and the Manti, all well known to trophy elk enthusiasts! There is an abundance of other wildlife here besides, however, and anything that moves can become a likely subject. A self taught artist Ron has held off going public with his art work until he has become comfortable with his ability to realistically portray the animals he absolutely adores. Ron hopes that others will appreciate this desire and be able to share outdoor experiences "brought to life" on canvas.

Noxious weeds degrade habitat quality, robbing wildlife of forage and cover

Because of our diverse modes of transport, many weeds are dispersed more rapidly by man than by natural dispersal mechanisms. **Do your part to limit man's impact.**

Traveling by horseback?

- ✓ feed certified weed free feed for 96 hours before entering the back country.
- ✓ carry only certified weed free feed.
- ✓ groom livestock and clean hooves to remove seed.

Traveling by motorized vehicle?

- ✓ stay on established roads or trails designated open to your class of vehicle.
- ✓ wash your vehicle, particularly the undercarriage, before moving to a new area or traveling home.

General information

- ✓ avoid camping in or traveling through weed infested areas.
- ✓ learn to recognize local noxious weeds. See your county agent for more information.
- ✓ report weeds to the appropriate land management agency or landowner.

Together we can slow the spread

PROVIDED BY THE SQUARROSE KNAPWEED WEED MANAGEMENT DEMONSTRATION AREA STEERING COMMITTEE.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources. Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division web site:

www.wildlife.utah.gov (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process.

Help Stop Poaching!

Poaching is a crime

Simply defined "poaching" is any illegal taking of fish, game or nongame wildlife.

- It is not a crime committed against the Division of Wildlife Resources, but a crime affecting all citizens of the State of Utah.
- Poachers steal from consumptive and nonconsumptive users alike. Present and future generations of law abiding outdoorsmen are the victims.
- Poachers erode public support of hunting and fishing.

(800) 662-DEER
HelpStopPoaching@utah.gov
*DEER

They threaten the existence of our sport. In short, poaching is a serious crime, and

poachers are nothing more than thieves.

Many entities in the private sector are partnering with the DWR to help protect our wildlife resources.

For example, UBET Wireless and Cellular One are making it possible for most wireless phone users to report poaching — free of charge.

Both companies are donating roaming and air charges for calls originating in many parts of rural Utah, no matter who your wireless provider is.

To contact the DWR Help Stop Poaching hotline on your wireless phone, simply dial *DEER and hit send.

Take a stand

Defend wildlife and the right of future generations to enjoy it

Photos on this page represent a small percentage of animals poached in Utah.

In 2000 and 2001, DWR Conservation Officers investigated the illegal killing of 591 deer and 442 elk.

Do your part and call the Help Stop Poaching hotline to report violations: 1-800-662-DEER (3337).

Ethics: *"A peculiar virtue in wildlife ethics is that the hunter ordinarily has no gallery to approve or disapprove of his conduct. Whatever his acts, they are dictated by his own conscience, rather than by a mob of onlookers. It is difficult to exaggerate the importance of this fact."* —Aldo Leopold

New book: Access to Wildlife Lands in Utah

The Utah Division of Wildlife Resources has long recognized the important role habitat plays in maintaining diverse fish and wildlife resources. Toward that end, over 90 Wildlife Management Areas (WMAs) have been established around the state. Virtually all of these lands are open for some type of wildlife-oriented public use.

One hundred eight WMAs and significant units within those WMAs are included in this book. The book also lists state fish hatcheries and fishing access locations.

The maps in this book were created by adding DWR land ownership information to available land status and topographic base maps. We use land status base maps so users could see adjacent land ownership patterns.
